## Welcome from M&J Farms...

Welcome to the 2025 M&J Farms/Glasman Farms Bull Sale. It is an honour and absolute pleasure to present to you this year's bull offering.

The enthusiasm and excitement in the cattle industry is at an all time high. Today's unprecedented markets have finally rewarded years, sometimes generations of blood, sweat and tears. Now, we believe more than ever, the investment and procurement of consistent production oriented genetics flat out pay dividends.

The bulls in our sale offering are the no-nonsense type. These powerfully constructed individuals have the age benefit of being coming two year olds. Being grown and brought along at a slow pace benefits both the bull and the customer. After developing bulls for generations, we have found that doing it right takes time and that improved longevity and functionality are the clear benefits.

We would like to thank all of our customers, past and present from the bottom of our hearts. This would not have been possible without you believing in our product and our program.

Thank you for taking a moment out of your busy schedule to study and consider our offering. If any of us can be of any assistance, please do not hesitate to call. Customer service and satisfaction is paramount and something we pride ourselves in here at M&J. Please join us on February 19th for lunch, a great day of friends, fellowship and a tremendous set of bulls!

## From the desk at T Bar...

Heavy Duty...Multipurpose...Performance Twos!

Welcome to the 2025 Edition of M&J Farms Simmental/Angus Two-Year-Old Bull Sale on February 19th at the farm a mile or so south of Russell, Manitoba.

In today's exciting and everchanging market it is difficult to acquire high quality two-year-old virgin bulls that are not picked over but were slated for this event. The Glasman Family have been producing and supplying high quality bulls for generations and have earned the label of leading breeders in the livestock industry.

The quality and uniformity run deep in this powerful offering of two-year-olds, and both the Simmental and Angus are very similar in type and kind. The bulls are born in pasture from April through June, and summer pastured for growth, and soundness and then brought in to prepare for the sale. Much of the credit for this powerful set of bulls must go to their large and predictable cow herd.

These bulls will cover more cows, bigger cows and are suitable for all types of terrain. Rugged, full of performance with optimal frame size and reasonable birth weight, you will appreciate the muscle shape and hair. Strong in maternal values, you will want to keep all the daughters.

Whether you are a farmer, rancher or purebred producer, you need to see this offering, it will be worth the trip, sale day or anytime prior. Feel free to call any of the M&J gang to visit about bulls that will fit your breeding intentions.

If we, at T Bar C may be of any assistance prior to or sale day, do not hesitate to call any of our team and we will be pleased to assist in a professional and confidential manner

Miles' Cell 204-773-6275

Bonnie's Cell 204-773-0094

Jared's Cell 204-796-0999

Matthew's Cell 204-773-6055

## Insurance

Keystone Livestock Services

Lois McRae 204-728-3058

## Volume Discount

M&J Farms and Glasman Farms offer a tiered volume discount per bull purchased:

2 bulls - 2%    3 bulls - 3%    4 bulls - 4%    5 or more bulls - 5%

## US Purchases

We are happy to host our American friends and have many repeat customers from across the border. All bulls are guaranteed exportable to the USA and we will attend to and assist with all necessary health testing, vet examinations, paperwork and permits to export your bull(s) across the USA border. A \$250 US charge per bull will be applied at the time of settlement. Any questions, please ask.

**COMPLIMENTARY PRE-SALE LUNCH AT 11:30!**

## Delivery & After Sale Options

**Option A: BRING YOUR TRAILER SALE DAY!** \$250 discount/bull if picked up sale day.

**Option B:** Bulls will be delivered free of charge to all points in Manitoba, Saskatchewan and Alberta. We will assist with arrangements to other destinations. Delivery will begin as soon as possible after the sale at the sellers' convenience. Bulls are welcome to stay on our ranch if prior arrangements have been made. Any bulls staying at M&J/Glasman Farms MUST be insured. We ask that all bulls are picked up or delivered by April 30th.

## Sight Unseen Purchases

We invite everyone to come through and tour the bulls ahead of the sale but also understand that getting away is not always easy. There will be videos online of all the bulls for you to view and we are just a phone call away. We offer one of the best sight unseen programs in the business, with personalized service that is tailored to meet your bull buying needs. If you aren't happy with your purchase at delivery or pickup, you don't own him.

We have had a lot of interest in our baldy bulls. This guy is no exception! Again, picture day weather did not cooperate at all. Call Jared and ask for pictures or videos in real time on any of the bulls. Also, we highly recommend that you take the time to view his video on DLMS.

Anyone who has followed our program here at M&J has most likely heard of the MMJ 1Y cow. "Jaycee" is a specimen of what we like to call the ideal cow. She never misses. She has sons in Missouri, Montana and across provinces in Canada. The Just Cause backed cow, coupled with the exciting Black Advantage herdsire co-owned with Niko Grose of Rocky Meadow Ranch, produced another great herd bull. The guess work is taken care of with 3018. Have a hard look at his video on DLMS.

Another really powerfully constructed Money 174H son! These half brothers would really set the consistency bar at another level being turned out together. Look up these lad's videos on DLMS.

If you are looking to breed black hided cattle of any type, check out this fella. The total package, 3075 is always found in the bull pen by visitors. Take a moment to check out his video!

## Welcome from Glasman Farms...

Welcome! We want to start by saying thank you. Thank you for your interest and support of our program. Whether that's as past customers and bidders, friends, family, extra bodies or babysitters – where would we be without all of you!? So, from the bottom of our hearts, THANK YOU!

In every welcome we have been lucky enough to write we have talked optimistically about the future of the cattle business and the way the cattle cycle, the markets and the cowherd numbers were lining up for great times ahead. We are seeing unprecedented prices at the auction marts, and although inflation is affecting cost of production and cost of living and I haven't met a cattle producer yet who isn't cautiously optimistic about the times, I think maybe Grandpa Marshall was right when he told me "these ARE the good old days".

2024 was a busy and exciting year! We added Bodie to the family in August so life has not got any less busy. Many of our cattle jobs are done with four little ones in tow. We want our cattle to be low maintenance and work for us and that's the way we breed and raise them.

In our own program we're striving for realistic, profitable traits. We have never been ones to chase extremes for calving ease that breeds the pelvis size and performance out of them. Or on the other side of the pendulum, to chase performance and with the sacrifice of calving ease, efficiency, and maternal traits.

We have been selecting genetics with short gestation that calve with ease and most importantly have vigor to live and ideally with the curve bending ability to grow. Our main focus is on the female as she is what will pull us through the good and the tough times. Major selection pressure for strong maternal traits: fertility, structural soundness (ability to travel), feet, udder quality, temperament, feed efficient easy fleshing (doability) and on top of that the ability to raise a quality calf each year. These bulls are the result of that.

At any time, don't be afraid to give me a call. I would appreciate the visit or if you have time, make the trip to the farm and check out the bulls and have a visit in person. They are worth the drive!

We look forward to seeing you sale day for the great lunch and hospitality.

*Matthew* 204 773-6055

ELLINGSON ROUGHRIDER 4202 (CONNEALY EARNAN 076E X EA BLACKCLASS 8914)  
PEAK DOT PRIDE 88B (S A V ELIMINATOR 9105 X PRIDE OF PEAK DOT 11Y)

The \$56,000 feature in Peak Dot's spring 2020 bull sale, Lancaster is a rugged built stock bull with true muscle definition, extra rib shape and real performance. His progeny display a nice pattern with body depth, fleshing ability and real muscle shape. His dam is a very well made SAV Eliminator 9105 daughter that ranks near the top for milk and marbling and has raised many herd sires and we feel that his daughters will be his real asset. We lost Lancaster to an injury in his last breeding season at Peak Dot so this will be your last opportunity to acquire one of these great Lancaster sons!

HERD BULL ALERT! This stud has been an absolute standout since birth. I just love his dam, MLG Blackbird 38D, and her production record. She has consistently raised top end offspring that have that extra character and look to them with length and muscle expression. She raised two of our best Earnhardt sons consecutively in 2022 and 2023. During summer and fall checks Lancaster 3012 would consistently catch my eye on how fault free and structurally correct he was and it almost would get that show bug burning, knowing that he would stand at the top of any class. A true favorite with undeniable genetic potential!

The Lancaster bulls are definitely the right type and kind. They're easy doing, stout and hairy. Their calves will sell great at the auction barn! The best part about the Lancasters might just be the females who add that rib and stout softness in moderate packages with extended front ends and immaculate udders. We are very excited about the future of our Lancaster daughters. His dam was purchased from Johnson Livestock's dispersal out of their grass calving program and was one of the most popular cow families they had in their program.

Crowd favorite! With balanced traits and outcross pedigree he will be a contender for Stoutest Bull in the pen. If you need to add hair, depth of rib and extreme base width to your calf crop, this is your bull! This bull also has a great disposition.

Take advantage of your chance to buy a Lancaster. This is the last year they will be on offer as he was lost to a foot injury while at Peak Dot. A lot of positives to this bull: shape, balance, attractive skull, and a pedigree to go with it. The dam, MLG Annie K 56H, came to us as an embryo from Brooking Angus. She is the right kind and raises great calves with that extra look to them.

SALE FEATURE! Here's a full sib to last year's sale feature that went to Blast Angus in BC. Like his brother in structure and phenotype this bull has that look where you just can't help but stop and stare! His unprecedented muscle shape, massive volume and character to burn makes him one of the most sought after bulls this season to add hair and stoutness to your calf crop. He is backed by our infamous Blackbird family. His grandam, Blackbird 18Z, has raised many of our best females and bull sale features. We really like this bull and think he's worth the drive!

Here's a bull that caught Chris Poley's eye when he was down in January. He checks a lot of boxes and does a lot of things right! Stout and big middled with that attractive herdbull character, great temperament and large scrotal. His dam is the model Angus cow: feminine with sweeping rib shape and a near perfect udder. She's a maternal sister to the bull that led off our catalogue last year and sold to Tyler Digby, Paxhill Farm.

I believe this Lancaster son will add length and consistency to his calf crop. His big bodied productive dam is built on the foundation of our program, Authority x Pioneer. She raised a high selling bull in 2021, the stoutest Earnhart son in 2022, and an Essential son that sold last year to good friends and customers, Paul and Kim Buchan.

This guy was pictured at the end of picture day (as you can tell by the shadows) so we didn't get the picture we wanted of him, but don't hold it against him. This is a case where I can say "his picture does not do him justice" as he's another great Lancaster with unparalleled rib and muscle shape. In layman's terms, these bulls have guts, butts and nuts. He will be sure to add pounds and base width to his offspring. As for maternal, his dam by the very popular Banknote is one of our favorite cows; always producing a great one! She has a Density heifer calf this year.

Full sibling to last year's leadoff bull. Phenotypically and genetically outstanding. He is long as a well rope, deep ribbed with a big top and large scrotal! His exceptional dam is backed by the immortal Final Answer and Coleman Donna cow families. His grand and granddam are ideal Angus females. His granddam did an amazing job at Lewis Farms making their flush program and raising a proven SAV Harvester herd sire for them. This bull is great tempered and easy to work with.

SALE FEATURE! This herd bull candidate features extreme volume, mass muscle shape and a length of body that has made him an easy to find standout since he was a calf. Displaying large scrotal development, fleshing ability and great disposition, I truly believe this is the best Mindbender I've seen to date. His dam was probably one of Brian's quietest cows and stems back to his highest income earning cow family, the Queen Ruths. Over the years we have found and purchased a lot of top end bulls. This bull would stand in there with any bull I've seen to date. Backed by proven cow families from Hogbergs, Hamiltons, McCarthys and our Blackbird cow!

LOT 40

In the fall of 2022 I attended the great Spring Creek Simmental and Angus dispersal of Brian McCarthy and family. With the help of Brian's "cheat sheet" we were lucky enough to acquire three proven top end productive females from the herd. They were all bred to Mindbender and you will find three brothers catalogued this year to choose from. The dam of this bull is a maternal sister to the lead off Angus in the dispersal who was sired by MLG Pioneer 40B! (full sib to MLG Blackbird 10Z).

This Mindbender son is a full sibling to my pick of the calves at McCarthy's Spring Creek Simmental and Angus dispersal and my second favorite calf was out of his grandam, Queen Ruth 15A. His dam also raised a full brother that was a sale feature in a previous year proving her consistency and ability to raise the top end son when you look at this bull here today. Appreciate him for his length and athletic ability.

The only Spring Creek Mindbender son in the sale, the youngest Angus, and he is wide based and big scrotalled with excellent disposition. His dam is a beautiful Lancaster daughter who is easy fleshing, thick and very feminine. Study the catalogue and look through the bulls in the pen and you'll see the McHenry Lass sons are a certain type and kind. Deep and Stout!

Here's an Essential son who checks a lot of boxes. I believe he will leave calves with lots of vigor and growth and the high potential to leave front pasture replacement females. His Banknote dam has an excellent udder and production record. She seems to be able to put a little more frame and punch into her offspring. She has raised a top notch Renovation grandson for next year's sale!

This Essential sired bull has an amazing side profile and great herd bull character. We showed his dam the very first year we had Banknote calves and I think she won every class she was entered in. She created a lot of attention right from a calf as we were offered a large amount of money while she was only a couple months old on pasture. Backed by Tibbie on the top side of his pedigree and Blackbird on the bottom.

We bought embryos the very first year Hamiltons and 6 Mile had bought Showman not knowing how much excitement would follow. The following winter semen brought \$1,800 a straw. We used the son on our own herd and he has worked extremely well. Calves came easy and grew fast. His full brothers at Hamilton's and Rio Grande averaged over \$25,000. We look forward to seeing how the females turn out as they calve this spring. Chris Poley thinks they should be great from what he has seen at Hamilton's. This bull's productive dam was bought from Brooking Angus and is a full sister to Brooking Trendspotter. Please refer to Granddam's picture beside Lot 31.

A ranch bull that would work well in a multiple sire group and able to cover lots of ground. I truly believe that the Tibbie cow family is one of the most consistent in producing proven, quality cattle. His dam, granddam and sisters have all been the front pasture kind with production records to rival any. Match that with the calving ease and growth of the Showman bull and it's a win-win!

13L is a direct son of U2 Temptation, the full brother to U2 Coalition. This bull has extra frame and length and is a little rarer and rugged made, but would work excellent on smaller framed, easier fleshing cattle such as Charlo or Capitalist genetics or if you just need a little extra punch and go. This bull is backed by top maternal genetics being out of our donor, MLG Blackbird 10Z.

This is our longest and stoutest red Simmental Bull...and the only Simmental bull in our offering. All jokes aside, he is a good one. His sire, Oakview Huntly, is an SVS Betts son that has four proven donors in his initial upfront pedigree. He stems back to the great KOP Bengie 6P that has raised many proven herd sires such as Sunville Driller, KOP Crosby 137W, and many more. We are blessed with many Huntly daughters and look forward to their production. 3105's dam and granddam are solid red and proven in our herd. Great granddam was a flush cow at Perkins Simmental.

Here is a three-quarter Simmental Huntly son out of a beautiful, moderate, easy fleshing Earnhardt daughter with a great udder. We all wish we had a whole commercial herd that looked like her. His full brother might be one of our most impressive bull calves for next year's sale. We really like our Simml/Angus cattle and find they are the best of both worlds!

LOT 56

# Family Farm Life

# Terms & Conditions...

## Terms

The terms of the sale are cash or cheque, payable at par. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

## Payment Options

Payment in full sale day will be the norm. If special arrangements are needed please discuss with Miles Glasman (M&J Farms) and/or Matthew Glasman (Glasman Farms) prior to the sale.

## Insurance

All bulls staying at M&J Farms/Glasman Farms MUST be insured. We strongly recommend that insurance is purchased for full value. Your purchased animal is your sole responsibility as soon as the sale concludes.

## Delivery

Every assistance will be given to get your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

## Breeder's Guarantee

All bulls will be semen tested prior to the sale. The bulls sold are sold with a breeder's guarantee. If problems arise please notify M&J Farms/Glasman Farms immediately so the replacement or credit towards another bull can be dealt with in a timely fashion. At no time will M&J Farms/Glasman Farms be responsible for more than the purchase price.

## Pedigree Estimates (PE)

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

## Announcements

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

## Exception Guarantee

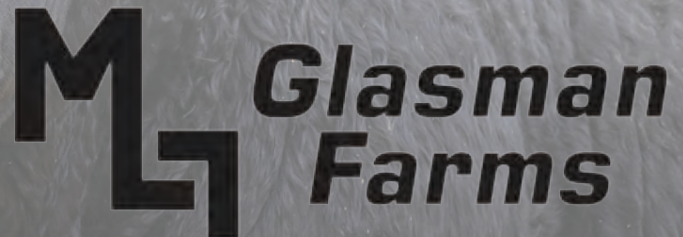

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

## Liabilities

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

## Rights and Obligations

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.
